About

Reliable and responsible person who is also a good listener and learner, able to communicate well with a group and on an individual level. I am passionate about everything related to web programming, and that is actually what motivates me to strive to learn new skills and improve existing ones. Seek to work in environment that will help me develop my skills further, while allowing me to contribute to the future projects and enhance company productivity.

</> Skills

- XML, HTML, CSS/SCSS
